PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed—all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR BUSINESS!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First—by setting a good example YOURSELF—being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second—by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning—don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles—make sure they are out use your ash tray.
5. Don't burn at home—use your town dump and save yourself much possible difficulty, both personal and financial.

A WORD FROM YOUR FOREST FIRE WARDEN

The following figures indicate the extent to which our town dump is used. The figures are not complete for the entire period during which the dump was supervised but they are impressive. They cover 11 days in July, 14 days in August and 6 days in September. During this period 740 passenger cars and 190 trucks deposited all types of waste material representing a tremendous volume. An average of 24 cars and 6 trucks—nearly 4 vehicles per hour for the time the attendant was there—used the dump each day. To this must be added those who came when the attendant was not there—very early morning and in the evening. Flammable material is burned by the attendant each day as it is brought in if conditions permit and under the general direction of your forest fire warden. The attendant takes pride in his work and has done an excellent job. We have a community dump which has received the praise of both our townspeople and the district fire chief who frequently inspects it. You who use the dump are to be commended for your cooperation by dumping where the attendant requests. This helps to keep it both safe and clean looking.

Since the dump is open all the time, our greatest difficulty comes during the period the attendant is absent—early morning, evening and days off. Some are careless. They are inclined to scatter their waste instead of putting it as near the edge of the dump as possible. A little more consideration on their part would aid materially both in keeping the dump safe and providing space for everyone who comes at that time. We solicit your cooperation in this regard.

We urge everyone to bring their waste material to the dump instead of trying to burn at home. It is the safest method of disposing of it and eliminates individual responsibility for such burning.

HEALTH OFFICERS REPORT

June 15th contacted Mr. Stewart on the Bowles Road in regards to a new cottage being built on the Kelley lot. A new septic tank was installed and a new overflow made.

Upon request, samples were taken from the brook at Newbury, tests were made by the State Board of Health of the water and a further check will be made.

The State Board of Health was called in to check the new building at Newbury. They made recommendations and specifications to be carried out.

The Sewerage System at Blodgett Landing was put into operation July 1st, 1960, and was a big success.

The trouble spots of past years were not in evidence this summer. The Bowles Road from Blodgett Brook Bridge to the road leading to Mr. Jacques Coleman is in the planning stage to be connected to the present system.

Selectmen of Newbury

The meeting was opened by the moderator, Randolph H. Milligan. He explained the purpose of the meeting and asked those present who had recommendations to write them out and they were acted on as follows:

ARTICLE 1—A very dangerous situation exists at the fork of Bay Point road. From two to four cars are frequently parked on the road at that point. Parking should be prohibited there—and the prohibition enforced.

L. C. Leonard

This article was discussed at the 1959 Summer Meeting and Mr. Perry stated that "No Parking" signs had been put up, but apparently had been taken away. Mr. Perry also stated that this would have to be made a town ordinance in order to be enforced.

ARTICLE 2—Talk over problem at Chandler Cove.

Elmer I. Goddard

Mr. Goddard explained that the situation at Bay Point is steadily becoming worse. Mr. Perry stated that a bill put through the General Court for the sum of \$1,200. allowed by the legislature to survey the properties by a special engineer. Also that an investigation will be made this spring and fall and recommendations will be made to the legislature for action.

ARTICLE 3—Is there any chance of a float and diving board by the dock at Newbury Harbor?

John F. Roche

Mr. Perry stated that the diving board at Blodgett Landing had been bought and paid for by the Cottage Owners' Association.

ARTICLE 4—Has any thought been given to a beach for smaller children at Newbury?

John F. Roche

Area at right of esplanade considered for small children with raking and more sand. Suggestion was made that it be investigated. Mr. Perry stated that at present most of the money appropriated is used for docks. If the town people are willing to appropriate a sum of money it will be brought up as a recommendation at the regular Town Meeting. A motion was made that money be appropriated to improve and keep clean all public beaches in the Town of Newbury. This was seconded by Elmer I. Goddard and so voted.

ARTICLE 5—What is the town's position in regards to the new road in Idlehurst, Blodgett Landing, Town of Newbury?

K. W. Kellsey
Helen M. Ryan

Mr. Perry stated that there is still one person who must sign and the Town would be glad to take over road.

ARTICLE 6—Why no garbage containers at Newbury Dock? Broken glass and tin cans lying around which are dangerous.

A. Newkirk

This was discussed in previous Article.

ARTICLE 7—Roping off of safety area on beach area bordering land taken over by Larry Bonner used by Newbury Heights land owners. Improvement of limited beach area available to us in this particular spot.

Priscilla E. Couture

Mr. Perry stated that would be looked into, to see what could be done.

ARTICLE 8.—That a sign be placed at the entrance of the dump road in Newbury reading "No Left Turn". With the increase of summer travelers a left turn at this point is almost impossible to make because of the curve in the road going south.

Jean Newkirk

Mr. Perry suggested that a sign "No U Turn" be put up and that this might help.

Mr. Bryant, representing the Cottage Owners' Association of Blodgett Landing, expressed his thanks for the appropriation of \$800 for the recreation program to this As-

sociation in 1960.

Mr. John Roche remarked that the Town was to be commended on the excellent job being done on plowing of town roads.

Mr. Goddard made a motion that another courtesy meeting be held the second Saturday of August, 1961, at 7:30 P. M., seconded by Mr. Leonard and so voted.

Meeting was attended by 42 non-residents, several residents and Town Officials.

Adjourned at 8:35 P. M.

We were again fortunate to have the same staff as last year. Mrs. Cole and Mrs. Gaffney have worked very well together and conditions have been pleasant and harmonious. Miss Bailey has provided valuable experiences for the children in the area of music. Miss Whitcomb has been the school nurse for a number of years, and, although her work is not as noticeable as the others, it has been very valuable.

Two other members of the school family who should be mentioned are Mrs. Edith Eaton, who prepares our very fine hot lunches, and Milford Newell, the janitor of the building.

All conditions favor the continuation of the ski program. In Newbury conditions are ideal because of the number of children who participate in the program and closeness to the ski area, and time assigned to the ski program because Newbury was the first community to have a ski program. Because of these very favorable conditions, we would be most unwise not to continue a program which has been of excellent value to the children.

The High School transportation problem is still with us. Under the conditions which exist, it would seem only fair that transportation be provided for our high school pupils.

I enjoy my visits to Newbury and seeing the children and teachers. You have a grand school program, fine teachers, and a wonderful group of children.
